WHAT A DIFFERENCE FEED MAKES

We changed our feeding program last year and are so pleased with the results! Our horses were doing ok when we used Strategy, but now they are over the top. You can see the improvement in their slick shiny hair coats, solid strong feet, and bright clear eyes. Our yearlings and two year olds have never looked so good. The horses in training have all the energy they need, without the high headed antics some other feeds produce. Please call to set up a time to visit with us and see for your self (970-395-0520).

The picture at right shows just how athletic this daughter of Bobs Freckle is. It is especially exciting to see her perform when you consider she has **NEVER been injected, received Bute or any other drugs.**

Sally Bob Freckle showing the results of our feeding program and Equine Sport Massage (Bonnie's Treatments).

THANKS TO MY LOYAL CUSTOMER

Over the years Betsy Talermo has been a very consistent user of Bonnie's Equine Sport Massage and her horses have enjoyed the benefits of the therapeutic essential oil treatments. This year was no exception. Betsy and her horse, Joseph (Sombodys Smart Talk), had quite a fall season. It all started off in Casper WY with a full treatment and they won the NonPro Reserve Classic Champion.

Next was the WSCHA Limited Age event with follow-up treatments and they took the Champion Classic NonPro. A few weeks later found the duo in Las Vegas where Betsy applied the oils herself and they took the Champion Classic Amateur. Not to quit when she is hot, Betsy took Joseph and her oils to PCCHA Golden Hills LAE and earned over \$8,000.
